Accenture > Microsoft Cloud & AI Platform Expertise

Accenture has one of the largest Epic and Microsoft practices in the world.
We have the combined experience and scale to drive impact.

Specializations

240K+ Microsoft-skilled resources, with 65K dedicated practitioners

2000+ Global Epic-certified resources

Thousands of other skilled resources in dependent technology (e.g. Citrix, F5, etc.)

FY'26 Solution Play Alignment

Migrate entire clinical estate, including Epic to Azure to drive infrastructure savings, operational efficiencies, and transform and digitize patient care through easier integrations with cloud-native tools and applications

Transition to Operations

Challenge

UHG seeks to improve the overall business (user experience, collaboration and AI innovation) and technology (scalability and elasticity, security and resiliency) of their Epic system.

Solution

Accenture and Microsoft partnered together to develop the secure infrastructure, and Accenture was responsible for the Epic migration and operational readiness.

Production & Disaster Recovery successful migrated to Azure (and 40+ environments)

Results

- ✓ Security – Exceeded 90% MBO Score and passed multiple audits
- ✓ [Resiliency – exceeded 99.95% uptime goal and beat on-premise results.
- ✓ User Experience – improved experience with higher success rates and improved system response time.
